

There is a need for an increase in qualified teachers and teaching assistants in Kentucky that will be addressed through a cooperative transfer agreement between Kentucky's public and private senior postsecondary institutions and the Kentucky Community and Technical College System (KCTCS).

The *Kentucky Postsecondary Education Improvement Act of 1997* mandates a seamless system of postsecondary education that can only be achieved by promoting ease of transfer for learners between Kentucky institutions.

In order to promote the transfer of credits between KCTCS and Kentucky's colleges and universities and thereby increase educational opportunities for students, KCTCS and participating colleges and universities establish this transfer agreement for courses in the KCTCS AAS degree in Education leading to credit in the Baccalaureate Degree in Education. The agreement includes general education certification as well as teacher preparation courses applicable to the major.

This agreement recognizes that transfer of credit across programs is possible even when there are differences in program emphasis. Accordingly, this agreement reflects these philosophical and content differences by sometimes grouping courses that are covered more broadly at senior institutions and in-depth at KCTCS. The courses in these groups are not intended as individual course and credit equivalencies.

KCTCS and participating senior institutions agree to advise each other of changes in course requirements for any course listed in the agreement in order to ensure continued compatibility between the courses offered by the faculty at each institution.

KCTCS and participating senior institutions agree to renegotiate this agreement as necessary due to changes in course requirements at either institution.

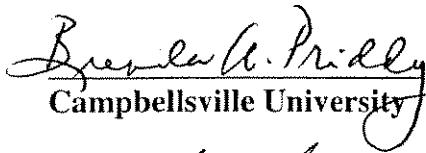

KCTCS students must apply for admission to the senior institution of their choice and have official transcripts forwarded to the admissions office directly from a KCTCS college.

KCTCS students who transfer under the provisions of this agreement will need to complete the upper division courses from the senior institution as specified in the agreement in order to meet the requirements for the Bachelor's degree.

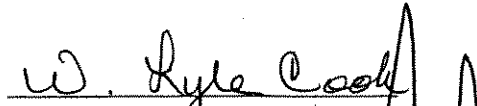

While program admission is not guaranteed in these programs, students who have completed the KCTCS AAS in Education, Teacher Preparation option will have a minimum of 60 credit hours accepted towards their Bachelors degree.

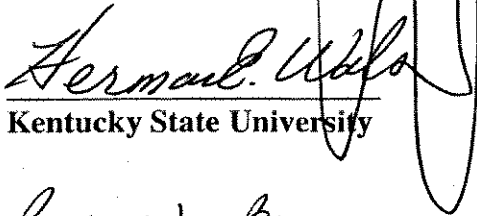

All institutions participating in this agreement will observe SACS and other discipline specific accreditation standards as well as CPE guidelines and rules. Both institutions agree to adhere to CPE requirements for reporting transfer information.

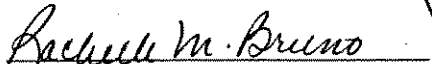

In the event that any one of the senior institutions determines that it will no longer offer the Bachelor's degrees included in this agreement, the senior institution will provide one-year notice of the termination of the degree program. Students enrolled in the program, either at KCTCS or the senior institution will be given a reasonable amount of time to complete degree requirements.
