Major Courses Bolded: An overall GPA of 2.5 must be attained in major courses.

Graduation Unit Totals: To graduate in four years, expect to take approximately 16 units per semester. **A minimum of 126 units are needed.**

*All business majors must pass MATH 170 COLLEGE ALGEBRA with a B or better. Remedial courses may be required. Please complete prior to freshman year.

**Students may take their THEO course (3 units) during the summer between their Junior and Senior years instead of 18 units in Spring of their Junior year.

-It is important to take courses in order, as many are prerequisites to those that follow. If taken out of sequence, graduation in 4 years is not guaranteed.

-APU does not accept grades lower than a C- for transfer credit.

-If remedial courses are needed, it is highly recommended they be completed prior to the freshman year (they are foundational for success in college level courses).

-Note: remedial units will not transfer to APU, count towards minimum to transfer, or count towards the minimum required to graduate.

-Students need to transfer a minimum of 47 units in order to complete the business degree in 5 semesters. Please refer to the APU catalog for further program information, admissions information, and the department requirements for the business major--including admission to the School of Business.
