

## MEMORANDUM OF UNDERSTANDING

### **Newberry College and Midlands Technical College**

The following agreement between Newberry College and Midlands Technical College is designed to enhance the transfer of students from Midlands Technical College to Newberry College. This collaboration is intended to serve students by providing program support and services which facilitate the transfer process and prepare and acclimate students desiring to matriculate at Newberry College.

#### **Overview**

This program utilizes existing policies, programs and services in a defined and targeted way for students beginning at Midlands Technical College who wish to matriculate at Newberry College. Policies governing the admission, enrollment and transfer of students are the sole purview of each institution.

Students served by the program begin their academic studies at Midlands Technical College. Transfer consideration generally requires at least 24 semester hours of transferable work for traditional students and at least 60 semester hours of transferable work for students wishing to enter the *fastFORWARD* program (individual *fastFORWARD* programs may have lesser requirements). While it is anticipated that students will spend at least a full year at Midlands Technical College, students meeting Newberry College's freshman admission requirements may transfer after one semester.

Newberry College and Midlands Technical College will promote associate degree attainment to interested students. This includes, but is not limited to, completing all necessary coursework and hours to earn an associate's degree at Midlands Technical College or the 'reverse transfer' of courses back to Midlands Technical College upon successful completion of coursework and hours at Newberry College. Midlands Technical College and Newberry College will work together to develop equated courses and articulated curricula in mutually desired academic disciplines.
