## Bachelor of Arts in English

### Literature/Film Concentration

#### Articulation Agreement

The Bachelor of Arts in English with a literature/film concentration is designed to help students become perceptive, informed, and life-long students of literature and film. Through coursework which nurtures understanding and analysis of literatures and films of diverse cultures, the degree helps students to develop an appreciation for the complexity of written and visual expression. Students will become familiar with various critical approaches to literature and film, as well as their historical development, major movements, figures, genres, and themes. In order to encourage inquiry into the nature of the dynamic between experience, thought, language, literature, and film, students will develop critical reading and writing skills that will lead to their appreciation for the beauty of precise expression.
