ARCHITECTURE
2 + 2 AGREEMENT
between
Texas Tech University
and
San Antonio College

This agreement summarizes an academic union between Texas Tech University (TTU) and San Antonio College (SAC) to jointly support specific programs of study leading to a Bachelor of Science in Architecture. This agreement supplements any existing social contract of understanding between Texas Tech University and San Antonio College, and is an assertive response to the need for a program in the San Antonio region which leads to a degree accredited by the National Architectural Accreditation Board (NAAB).

This proposal provides for close peer coordination of curricula content and instruction in the General Architecture and Pre-professional programs at Texas Tech University and the Architecture Program at San Antonio College and facilitates a seamless transfer for students who are seeking a Bachelor of Science in Architecture at TTU. Students will be able to complete the majority of the first two years of study at SAC and earn an Associates Degree in Architecture at SAC before or after transfer to Texas Tech University. All San Antonio College courses listed on the most current course transfer agreement form will be accepted toward the Bachelor of Science in Architecture degree at TTU. Admission to the pre-professional program at Texas Tech University will be subject to existing policies and procedures.

The results of this joint enterprise will be monitored by representative of both institutions and will be renewed at least every three years. Termination of this agreement may be initiated whenever either said party believes such action to be in the best interest of those involved.

IN WITNESS WHERE OF, the parties hereto have made and executed this Agreement, this 8nd day of April 2008.
