### Transfer Guide for Mineral Area College

This plan is intended only as a general guide based on requirements in the 2013-2014 University of Missouri undergraduate catalog. Check the following web sites for current course descriptions, prerequisites, course equivalencies and other specific details about the journalism degree:

- 1) College Catalog (<http://registrar.missouri.edu>)
- 2) Transfer Equivalencies (<http://transfercourses.missouri.edu> or <http://transfer.org>)
- 3) General Education (<http://generaleducation.missouri.edu>)
- 4) Missouri School of Journalism (<http://journalism.missouri.edu/undergraduate>)

**Admission to the Upper-Class Status and Emphasis/Interest Area** - Transfer students are admitted to upper-class status in Journalism on a space-available basis when they complete 60 credit hours, fulfill all prerequisites on page 1 of this transfer guide and establish a cumulative GPA of at least 3.0 in courses taken at MU. *Completion of at least one semester at MU is required for transfer students to establish an MU GPA and qualify for admission. Because of that, students who plan to major in journalism are encouraged to transfer to Missouri after taking no more than 45 credit hours elsewhere.* Students who transfer to Mizzou without any lower-division journalism courses (JOURN 1100, 2000, 2100, or 2150) will need at least three semesters to complete the lower-division journalism courses.

For more information about the journalism program, contact the Missouri School of Journalism Undergraduate Advising at (573) 882-1045 or [JournalismStudentServices@missouri.edu](mailto:JournalismStudentServices@missouri.edu).

**Courses That Do Not Count** - The School of Journalism accepts most courses from other MU divisions (or the equivalent transfer courses). Some courses, however, are considered duplicative of offerings in the School of Journalism or viewed as journalism-related courses taught by other divisions. Because accrediting standards limit the number of journalism credits a student may take, these journalism-related courses will not be accepted for credit toward the Bachelor of Journalism degree:

- Science and Agricultural Journalism. All courses unless cross-listed as Journalism courses or as approved electives.
- Communication. All courses related to television, radio, production, public relations and media.
- Internship courses taken in other divisions if the internship is journalism-related.
- JOURNALISM 1000, The News Media: Journalism and Advertising in a Democratic Society, is for non-journalism majors.
- Non-college level courses. Courses in this category at MU are usually numbered below 1000 and are considered remedial in nature.
- Political Science. POLITICAL SCIENCE 4120 Politics and the Media.
- Sociology. SOCIOLOGY 3400 Politics of the Media.
- Student Success Center. STUDENT SUCCESS CENTER 2100 Career Explorations. (Considered duplicative of Career Explorations in Journalism.)
- Miscellaneous. Generally, any course in another division with “advertising,” “public relations,” “media,” “communication,” “news” or similar words in its title will not be accepted for credit toward the Bachelor of Journalism degree. If in doubt, check with your academic advisor to make sure a course will count.
