General Elective	* See below

This is not an articulation agreement. This chart should serve as a reference for Holyoke Community College students who eventually plan to transfer to Western New England College. We hope that this will aid you in working towards your academic goals and maximize the transfer credit applied towards a degree at Western New England College. Please reference our College Catalogue for additional information. A maximum of 70 semester hours may be transferred from two-year institutions. The School of Business requires that at least 50% of the business credit hours be earned at Western New England College. The Business Administration Transfer Option will serve as an excellent option for students interested in transferring into any of following majors offered at Western New England College: Accounting, Business Information Systems, Finance, General Business, Management, Marketing, Marketing Communication/Advertising, and Sport Management.

* The following Holyoke Community College courses will count towards satisfying Western New England College's general College requirements: **Business** - CSI 242 Applied Database Management, any approved business course(students should confirm with the Admissions Office at Western New England College); **Social Science** - PSY 110 Intro. to Psychology **or** SO 110 Intro. to Sociology, any history course (one); **Mathematics** - MTH 142 Statistics, MTH 160 Intro. to Matrices & Linear Programming, MTH 162 Applied Calculus; **General** - COM 150 Public Speaking, any course listed above. Business courses from a college not accredited by AACSB that are determined to be equivalent to 300-400 level courses at Western New England College will be considered for transfer credit (up to one course). With this in mind, the College will apply credit for one course that is required for the intended major. One additional course identified as equivalent to a 300-400 level course at Western New England College will be considered for transfer credit as a business elective if the course does not satisfy a specific requirement for the intended major.

NOTES:

1) Western New England College will produce a degree audit for all students accepted in the Joint Admission Program. The audit will be based upon a current copy of an official Holyoke Community College transcript, and/or a list of in progress course work. An updated copy will be produced each time an updated official transcript is presented. The degree audit should be used as the official document to determine what degree requirements remain to be satisfied.

2) Western New England College may not be able to apply towards the curriculum credit that is not specified as eligible for a specific major offered through the Joint Admissions Program. Students are subject to transfer credit restrictions as noted in the Western New England College Catalogue.

* Students may have satisfied some of these requirements through elective courses taken at Holyoke Community College. To ensure that the maximum number of credit is applied towards a bachelor's degree at Western New England College, students are encouraged to select recommended courses provided on page 1 of this transfer guide. For additional information reference the College Catalogue at www.wnec.edu/catalogue, or contact the Admissions Office at 413-782-1321.

** Transfer students with 1-2 years of full-time study at Holyoke Community College will be considered for an exemption of one LBC experience. For additional information about LBC, please reference Western New England College's *Academic Programs Book*.

*** Course can be substituted by any Holyoke Community College Business Department course that is equivalent to a three credit 100 or 200 level course at Western New England College.
