

**Atlantic Cape Community College
and
Rutgers University-Camden School of Business**

Articulation Agreement

The purpose of this agreement is to provide interested and qualified Atlantic Cape Community College (ACCC) students seamless admission to baccalaureate-level business programs at Rutgers University-Camden.

Subject to the terms of this agreement, a student who completes the appropriate business and general education courses at Atlantic Cape Community College is assured third-year standing in the Rutgers University-Camden School of Business.

The Agreement: To qualify for the advantages of this agreement, Atlantic Cape Community College students must:

- A. successfully complete the attached sequence of courses prescribed by the Rutgers University-Camden School of Business faculty.
- B. earn a 2.6 grade point average with consistent academic performance in both career and general education courses.

Students meeting these requirements are guaranteed by the Rutgers University-Camden School of Business and Atlantic Cape Community College that:

- 1. a place is held for them in the third-year class in the Rutgers-Camden business program;
- 2. they may enroll with full junior standing in the semester following completion of their work at Atlantic Cape Community College; and
- 3. 64 credit hours of approved course work with the Associate of Science degree be completed at Atlantic Cape Community College with a grade of "C" or better will transfer to Rutgers University-Camden School of Business. [64/67 credits from ACCC equate to 54/60 credits towards the Rutgers degree, depending upon the specific Rutgers major.] (See curriculum worksheet.)

Remediation: Admission to the joint admission program is selective. Students requiring remediation may be required to complete all remedial work before they are admitted to the program and will be required to complete more than 64 credit hours at Atlantic Cape Community College. Because remedial courses do not transfer under the terms of this agreement, the specific remedial courses required of these students as well as the exit criteria for those courses are outside the scope of this agreement. No more than 64 credit-hours of approved coursework transfers to Rutgers-Camden.

Program Features: At the time they are accepted into the program at Atlantic Cape Community College, students complete the Rutgers application and receive conditional admission to the School of Business. To exercise that admission, students must meet the requirements outlined above. At the start of their final semester at Atlantic Cape Community College, students must notify the Transfer Coordinator at ACCC of their intent to enroll at Rutgers University-Camden School of Business the following semester. The Transfer Coordinator will notify the School of Business at Rutgers-Camden of the student's intent.

Removal for Unsatisfactory Progress: Because this is a selective program, students who do not make satisfactory progress or who fail to enroll without an approved leave of absence may be removed from the program.

Promotion: Both colleges agree to promote the joint admission agreement through press releases and, on an on-going basis, through admissions and recruitment literature.

Duration of the Agreement: This agreement shall be for a period of four years. The agreement shall be administered and maintained by a committee from each college. The agreement does not renew automatically. Committee members shall evaluate the program after three years, make changes where appropriate and, if satisfied, renew the agreement for a period to be determined. Either party may terminate the agreement upon four months written notice. If the agreement is terminated, students already admitted to the program shall be permitted to complete the program under the terms of the agreement.
