

The purposes of this agreement are as follows:

1. To attract qualified transfer students to Bergen Community College and SUNY New Paltz.
2. To provide the effective transition of transfer students, holding the Associate in Arts (A.A.) and Associate in Science (A.S.) degree from Bergen Community College to SUNY New Paltz.
3. To foster continuous communication between the respective departments to facilitate curriculum changes when appropriate and to provide accurate and timely advisement for interested students.

Terms of the agreement:

SUNY New Paltz agrees to accept all students who have earned the Associate in Arts (A.A.) and Associate in Science (A.S.) degree from Bergen Community College with full junior standing when transferring to a parallel program at New Paltz in accordance with the following:

SUNY New Paltz agrees to:

1. Accept up to 70 academic credits toward the baccalaureate degree upon award of the degree from Bergen Community College. A.A. and A.S. degree holders from Bergen, when transferring directly after receiving the degree, are considered to have met SUNY New Paltz's native general education requirement, but not necessarily the SUNY Mandated General Education requirement. An individual transfer credit evaluation will be provided to determine credits completed and credits still needed to meet the SUNY Mandated General Education requirement.
2. A.A.S. degree holders generally have a larger number of non-liberal arts courses in their Bergen program than A.A. or A.S. students. However, each applicant also receives an individual transfer credit evaluation with an assessment of credits completed and credits still needed to meet both general education requirements.
3. Grant credit toward the majors outlined in this course equivalency guide. In accordance with general college policy, one-half of the major must be completed at New Paltz.
4. Provide the opportunity to earn the baccalaureate degree in a parallel program in not more than four additional semesters of successful, planned full-time study, or part-time equivalent.
5. Guarantee the Bergen Community College students accepted in transfer under the terms of this agreement will also be subject to any special requirements applicable to students who originally enrolled as freshman to SUNY New Paltz.

Review/Revision

Review of this agreement shall take place biennially between designated departmental representatives. However, either party may request a review of the contents and/or terms of this agreement at any time.

Approved:

President

ANTHROPOLOGY

The New Paltz Anthropology Department offers a range of coursework dealing with the evolution of humans, the development and diversity of human cultures, as well as the study of family and social organizations, political systems, and religious systems. The department also sponsors a seven-week field school for students to participate in an actual archaeological excavation.

Students may pursue a major or minor in anthropology in the College of Liberal Arts & Science. They may also select Anthropology courses to be used towards the secondary (7-12) education social studies major. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

BERGEN COURSES

07214 Cultural Anthropology

Bergen courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses that are remedial/developmental in nature.

BIOLOGY

Biology encompasses a number of fields that range from molecular and cell biology on one hand to environmental studies and animal behavior on the other. In addition to extensive classroom and laboratory facilities, the Biology Department maintains both scanning and transmission electron microscope facilities. The surrounding area provides an excellent setting for field biology courses.

Students may major in liberal arts biology with a choice of concentrations in (1) Organismal/Environmental Biology, (2) Cell/Molecular Biology and Biotechnology, or they may select a biology major in childhood or adolescent education programs. Any of the liberal arts biology major concentrations provide the necessary course work for entrance into the pre-medical professions.

The New Paltz courses numbered 15201 and 15202 (or 15210 Introductory Biology for part-time and transfer students) are required for any of the above major programs. The other courses listed are electives or required for the major, depending upon the specific program. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

BUSINESS ADMINISTRATION

The School of Business at SUNY New Paltz offers the Bachelor of Science (B.S.) in Accounting, Finance, General Business, International Business, Management, and Marketing. These degree programs are designed to meet the demand for qualified graduates to work in today's global marketplace.

All students must take the Core Requirements (39 credits) and have a Math Proficiency Level (MPL) of 4. MPL 4 courses at Bergen are MAT 045 Intermediate Algebra and MAT 250 Statistical Analysis. Some business courses have prerequisites of which students must be aware. The Accounting degree requires 24 major credits for a total of 63 degree credits. The General Business, International Business and Marketing degrees require 20 major credits for a total of 60 degree credits. The Finance and Management degrees require 18 major credits for a total of 57 degree credits.

Acceptance as a major in the School of Business is based upon overall academic performance as well as performance in selected courses. Transfer students should be aware that (1) the university requires at least one-half of the courses in the major be completed at SUNY New Paltz and (2) transfer business courses which are given graduation credit by the university may not necessarily satisfy the business requirement. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

CHEMISTRY

The Chemistry Department at New Paltz offers many advantages to the student interested in majoring in this field. It provides a strong background in general, organic, physical, and analytical chemistry, and offers a variety of courses not generally available at four-year colleges. New Paltz upper-division undergraduates are able to enroll in advanced courses in biochemistry, materials science, and instrumentation. The small size of upper-division courses encourages close interaction between faculty and students.

High quality modern equipment is used for instruction and research in student laboratories. In addition, the chemistry faculty sponsor student research.

Two undergraduate programs leading to liberal arts degrees are available: the American Chemical Society (ACS) approved major and a general chemistry major. There are also concentrations in biochemistry and biotechnology. In addition, students in the adolescent (7-12) teacher certification program may select a chemistry major as part of the education curriculum. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

COMMUNICATION AND MEDIA

The Department of Communication and Media has three major programs: Communication Studies includes emphases in Interpersonal /Intercultural Communication, Organizational Communication, Public Communication and Public Relations.

The Journalism major offers students theoretical understanding and the practical skills necessary to succeed in today's news media (See the New Paltz catalog for details.).

The Electronic Media major may choose from one of two tracks: media management or radio/TV production. Management majors prepare in areas such as advertising, global media systems, law, research, and programming, for management positions across the various media. Majors in the production track learn how to use the tools necessary to create mediated messages, but more importantly they learn how the technology allows them to communicate effectively. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

ENGLISH

The Department of English offers programs designed to give students a knowledge of literary heritage and to develop skills as writers and critics. Within the English major at New Paltz, a student may select one of four options: general liberal arts, graduate preparatory, creative writing, or creative writing for the theater. In addition, students in the childhood (B-2/1-6), or adolescent (7-12) teacher certification programs may select an English major. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

FOREIGN LANGUAGES

Bergen students who have taken French, Spanish, or German may continue that study at New Paltz, either as elective courses or as a major in one of those languages. Students in the childhood (B-2/1-6) education programs

may select a French or Spanish major, while those in the secondary (7-12) education program may select a French, Spanish, or German major.

New Paltz also offers language instruction in Chinese, Hebrew, Italian, Japanese, KiSwahili, Latin, and Russian. Other languages, such as Arabic, Polish, Portuguese, Swedish, and Yiddish are offered under the auspices of the Weekend and Summer Language Immersion Programs.

New Paltz regularly offers overseas programs of varying lengths in China, Ecuador, France, Italy, Spain, Russia, and Germany, giving students an excellent opportunity to develop language skills and to learn directly about the target cultures. See New Paltz catalog for details.

NOTE: Students seeking certification in childhood education or secondary education must complete one year of college level foreign language.

One-half of the credits in the major must be completed at New Paltz.

GEOLOGICAL SCIENCES

Students may pursue a liberal arts major in geology with an optional emphasis in environmental geoscience or environmental geology. In addition, students in the childhood (B-2/1-6) or secondary (7-12) teacher certification programs may select a geology major as part of the education curriculum.

The department has excellent laboratory and equipment facilities, including a full array of petrographic microscopes, a petrographic thin section preparation facility, complete survey equipment for field geology studies, x-ray diffraction and fluorescence equipment, a microcomputer laboratory, and access to an electron microscope facility. Members of the department encourage capable students to make maximum use of equipment, both in class and in supervised independent research. The department also sponsors field study classes which are important to the study of geology.

The geology major requires a number of cognate courses in physics, chemistry, and mathematics, in addition to the geology coursework. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

HISTORY/SOCIAL STUDIES

SUNY New Paltz offers a liberal arts major in history. In addition, education students in the childhood (B-2/1-6) teacher certification programs may select a history major, and those in the secondary education (7-12) program, may select a social studies major.

The liberal arts history major requires 33 credits of history coursework including an upper-division seminar. Courses must be selected from European and United States History as well as from regions and cultures outside of these areas. See the History section of the New Paltz catalog for details. The secondary education (7-12) certification curriculum requires a social studies major which consists of selected coursework in economics, political science and geography, as well as in history. See the Secondary Education section of the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

MATHEMATICS

The liberal arts Mathematics major at New Paltz offers three concentrations: pure mathematics, computer science, and actuarial mathematics. The major in Mathematics provides a strong theoretical background for graduate or industrial work. It also focuses on applied areas of mathematics where scientific computing plays a central role.

In addition, students in the Childhood (B-2/1-6) or Adolescent (7-12) teacher certification programs may select a mathematics major as part of the education curriculum. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

Bergen courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

PHILOSOPHY

The Department of Philosophy offers both a major leading to the B.A. degree and a minor. Our program is designed to acquaint students with the major divisions of philosophy (logic, theory of knowledge, metaphysics, ethics and political theory, and aesthetics), and with the principal historical and contemporary figures and schools.

Philosophy is inherently interdisciplinary, so many of our courses are connected with other disciplines and subjects such as the natural sciences, the social sciences, history, language, literature and the arts, religion, technology, business, and medicine. Philosophical study requires and enhances the ability to think and write critically and effectively, and is excellent preparation for graduate study in various professions, including medicine, law, government, business and journalism. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

PHYSICS

Physics is the study of the laws that govern how our natural universe works. Physicists are employed in a very wide range of activities in and out of physics such as teaching, research, computing, business and finance. Majors often continue with some sort of postgraduate study; a physics degree is an excellent base for professional schools such as law and medicine, in addition to physics itself.

Students in adolescent education (7-12) may choose a physics major as part of the education curriculum. A dual degree program culmination in a B.S. in Physics and a B.S.E.E. in Electrical Engineering is also available. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

If a Bergen student completes only PHY 280, he or she should register for a one-credit modular course in physics and attend the last five weeks (thermodynamics segment) of General Physics I at New Paltz.

If a student completes PHY 280 and 290 at Bergen, he or she must register for a one-credit modular course in optics, as well as the one credit modular referred to in the previous paragraph, during the first semester at New Paltz. See the Physics Department chairman for details.

Bergen courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses which are remedial/developmental in nature.

POLITICAL SCIENCE

The department offers three separate liberal arts majors and three minors: majors in political science, political economy and international relations; minors in political science, international relations, and law and politics. Education students in childhood (B-2/1-6) teacher certification programs may select a political science major as part of the education curriculum. Students majoring in social studies in the secondary (7-12) teacher certification program may take political science courses as part of that major.

The political science program at New Paltz includes courses in American government and politics, comparative politics, political theory, international relations, and a variety of offerings in law and law-related fields. Students may participate annually for academic credit in a Model United Nations Program at Harvard University. The department also offers a full-semester internship program, with a wide variety of internship placements open to students in the New York State Legislature, public agencies of the Rockland, and New York City government. Internships are also available with the Legislative Gazette, which is the only weekly newspaper covering the N.Y.S. Legislature. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

POL 463 Co-Op Work Experience*	77494 Fieldwork in Political Science (3 credits)*

**May be used as elective credit toward the New Paltz Political Science major where applicable. Fieldwork in Political Science should not exceed 3 credits in meeting the Political Science major.*

Bergen courses not listed above may be accepted in transfer by New Paltz as general elective credit toward the degree with the exception of those courses that are remedial/developmental in nature.

PSYCHOLOGY

New Paltz offers a general liberal arts psychology major, and also a specialized psychology major with an emphasis on psychobiology. A minor in general psychology, and management and organizational psychology are also available.

The psychobiology concentration requires courses in general biology and genetics, between three and six credits in research, and several additional elective courses beyond the required psychology courses. See New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.

THEATER ARTS

Students majoring in theater arts may specialize in either Performance or Design/Technical. The department also offers a Theatre Arts minor.

Acting training in the Performance track is supported by classes in directing and musical theatre. The Design/Technical track offers unique programs with the International Alliance of Theatrical Stage Employees, internships with professional companies, and the opportunity for a B.F.A. degree in Scenography. See the New Paltz catalog for details.

One-half of the credits in the major must be completed at New Paltz.
