Articulation Agreement

Between Bergen Community College

And Strayer University

I.   PURPOSE

This articulation agreement is designed to coordinate transfer policies, enhance advising, promote the acceptance of the programmatic transfer of courses/credits between Strayer University (SU) and Bergen Community College (BCC) and encourage completion of the associate's degree.

II.   ELEMENTS OF THE AGREEMENT

    A.   Admissions Practices

        1.   SU will accept applications from students who wish to transfer from BCC into any <u>related</u> baccalaureate degree program at SU. Transferring BCC applicants must meet the same admissions criteria as other students applying for transfer to SU.

        2.   BCC students who graduate with an associate's degree, are applying to a related degree program at SU, and have a BCC cumulative GPA of at least 2.0 are guaranteed admission to SU. Once admitted, students are subject to all other policies and procedures, including residency requirement of SU, as outlined in the SU catalog. Students who have questions may consult a counselor and/or advisor at either institution for assistance.

        3.   BCC students, who have completed or will complete an associate's degree by the time they enroll in classes at SU, will be exempted from paying the SU application fee.

    B.   Acceptance and Application of Credits

1. The maximum number of transfer credits accepted from an institution granting a 2-year degree will be equal to 126-quarter credit hours or 84 semester credit hours. Under this agreement, all courses <u>required</u> to complete the specific related associate's degree program from an articulated school will be articulated into the bachelor's program in their entirety.

2. Students from two-year institutions where we have articulation agreements will have their entire degree program transferred in, including " C- and D" grades, allowing the student to complete their related degree program at Strayer University in about two years of full-time study.

3. Students completing an AA or AS at BCC will be considered to have met all lower division general education requirements at Strayer University.

4. If a student does not have the prerequisite for a 300 or 400 level course at SU, he or she <u>may</u> be required to take the prerequisite course before taking upper division course.

5. SU will evaluate courses/credits earned through Advanced Placement (AP), College-Level Examination Program (CLEP), or other testing programs. SU also will evaluate courses/credits earned at other institutions. Students seeking credit for these courses must provide the university with official transcripts for evaluation.

6. Prior Learning Activity and other life experiences credits already evaluated as part of the associate's degree program will be brought in with the degree.

Addendum A
