

**ARTICULATION AGREEMENT  
BETWEEN NORTHERN VIRGINIA COMMUNITY COLLEGE  
AND PARK UNIVERSITY**

**OVERVIEW:**

This formal program articulation agreement is made and entered into by Park University, hereinafter referred to as Park, and Northern Virginia Community College, hereinafter referred to as NVCC. By this agreement NVCC and Park express a shared commitment to increasing opportunities for student access to and success in higher education. By clarifying transfer policies and procedures, which assure articulation between programs, the institutions seek to assist students in making a seamless transfer from the associate to the baccalaureate degree.

**PURPOSE:**

This agreement provides students who have earned a selected **Associate in Science or Associate in Applied Science** degree the opportunity to complete a **Bachelor of Science degree** at Park. Any NVCC student who has earned an Associate in Science or Associate in Applied Science degree in an articulated program and adheres to the guidelines within this agreement is guaranteed that Park will accept designated freshman and sophomore education credits and all general education credits and will apply such to the Bachelor of Science degree in a manner consistent with the treatment of native Park students.

**CONDITIONS OF TRANSFER:**

*Section I: Admissions and Matriculation*

NVCC students maintaining continuous enrollment under this agreement will be afforded the same treatment and protection as native Park students enrolled under a specific catalog.

Criteria for acceptance into Park will be the same for transfer as for native students.

Transfer students from NVCC, upon acceptance into the appropriate program at Park, will have junior standing at Park.

NVCC, upon request of students, will provide verification of completed courses to Park.

To complete the residency requirement: transfer students must earn at least 30 hours of graded college hours at Park. At least 12 of these 30 hours must be in the major core.

Park will apply the same academic progress and graduation standards to NVCC transfer students as those applicable to native students at Park.

*Section II: Transfer of Credit*

A maximum of 75 credit hours will be accepted by Park from NVCC to be applied to the Bachelor of Science degree.

The transcripts of students transferring from NVCC will be evaluated by the Registrar's Office at Park. Only courses in which a grade of "C" or better was earned will be transferred under this articulation agreement.

Transfer students from NVCC will have access to financial aid, scholarships, and student services on the same basis as native students.

*Section III: Program Plan*

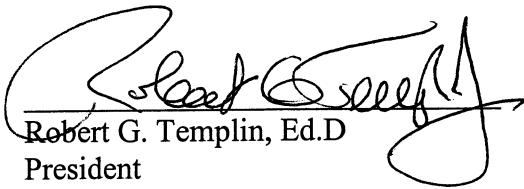

While a course-by-course equivalence was used in the development of this plan, this agreement presumes that the general education core requirements at NVCC meet all freshman and sophomore level university studies requirements of Park. Students falling under this program articulation agreement will be responsible for successfully completing the proscribed requirements.

**TERMS of AGREEMENT:**

This agreement is made and entered into in the academic year 2004-2005 and remains in force unless changed in writing by mutual agreement of both parties. The agreement may be amended at any time with the approval of both parties and is subject to regular review to assure currency with the respective degree requirements. Should either party desire to discontinue this agreement, advance notification of two years will be required. The agreement will be reviewed by both parties at least every two years to be sure all parts are still applicable especially the course listings.) Each institution will identify a contact person who will keep the partner college informed of any major changes that might affect the agreement. Each institution will furnish the other new catalogs as they are published.

**SIGNATURES:**

Northern Virginia Community College and Park University hereby enter into this program articulation agreement leading from an Associate in Science or Associate in Applied Degree to the Bachelor of Science Degree by the affixing of signatures of the chief executive officers of both institutions.
