17	FIN 191	Introduction to Finance	FIN 303
18	ACC 101	Principles of Accounting	ACT 201

Due to the variety of industry specific courses at CTC, some of which provide conceptual duplication across platforms, while other courses are stratified across introductory, intermediate, and advanced levels, Life University proposes using this “menu” approach to the transfer possibilities. Because some courses are 300 and 400 level and encompass a greater breadth and synthesis of managerial skill, a Senior Management Research Project (MGT 460/461) may be required to augment the same course experience with a greater breadth and depth of managerial perspective.

CTC students must maintain an overall GPA of 2.8 in courses listed on page 3 for this transfer of credit to be automatic. Every possible combination cannot be anticipated and special cases not covered above will be handled on an individual basis by each school’s coordinator (or designated agent) communicating with each other with the aim of reaching a mutually acceptable position regarding credit transfer.

\* Advanced standing hours that can be used as a part of the 120 quarter hours in areas IV, V, VI and VII of the curriculum. There are 185 total program quarter hours.

Life University will accept **up to** 105 quarter hours from Chattahoochee Technical College. In this way, the student can receive advanced standing when entering the program. The student must then pass 80 quarter hours in designated courses with the appropriate GPA at Life University to receive the BBA degree.
