

A maximum of 68 credit hours may be transferred from accredited two-year or four-year institutions consistent with the academic objectives of Austin College. Credits presented from other institutions in which the student earns a grade of C or higher will be converted to course credit units at the rate of four semester hours equal to one Austin College credit. No official credit evaluation can be offered until official transcripts from all colleges attended have been submitted to the Office of Admission. An evaluation of transferable credits and determination of subsequent requirements for graduation from Austin College can be made prior to matriculation through the **Office of the Registrar**.

Transfer students are encouraged to meet with faculty in the area of their major prior to matriculation to discuss their placement in the program.
