

Transferring College Credit

Creighton usually accepts credits from other post-secondary institutions, as long as the course was at an accredited institution and you earned a "C" or better in the course. Generally, the college you apply to - Arts and Sciences, Business Administration or Nursing - will determine how each specific class transfers. At times the courses may fulfill specific core requirements. Other times, you will earn elective credit for the course. The transfer credit evaluation process occurs during the application review process for the College of Business Administration and School of Nursing. The College of Arts and Sciences reviews transfer credits after the student is accepted to Creighton.

Creighton Credit Requirements

Since a minimum of 48 hours must be taken at Creighton, you should plan to spend your last two years here. A maximum of 80 hours will transfer towards a Creighton degree. The minimum number of hours in your major which must be taken at Creighton are 15 in the College of Arts and Sciences, 15-18 in the College of Business Administration or 20 in the School of Nursing.
