

Transfer Credits

Transfer students should be sure to request a final transcript from all colleges or universities previously attended. Once a transfer student has submitted an official transcript(s) to Hendrix along with a completed application for admission, an evaluation of credits will be completed and sent from the Office of the Registrar.

Transfer credit can be accepted subject to the following conditions and restrictions:

- Courses offered for transfer must be taken at an accredited institution.
- The courses must be comparable in academic quality to Hendrix courses.
- Transfer credit will be considered only for courses in which the grade of "C" or better is recorded.
- "Credit" or "pass" grades will not be accepted in transfer.

If a course is accepted for credit, it will be counted as "transfer credit." No grade points from such transfer courses will be calculated in the Hendrix grade point average.

For incoming transfer students, one credit will be awarded for every four semester-hours of accepted transfer work, rounding to the nearest whole credit. Once a student has matriculated at Hendrix, one credit will be awarded for every accepted transfer course, provided the transfer course carries at least three semester-hours of academic weight. Transfer credit must originate from courses taken at an accredited institution and those courses must appear on the student's transcript from the originating institution. No transfer credit is awarded for courses that have been applied toward an earned baccalaureate degree.

Residency Requirements

A student must successfully complete a minimum of sixteen courses at Hendrix. Six of the final eight courses counted toward graduation must originate from Hendrix or institutions which are in direct, formal institutional exchange agreements with Hendrix. Additionally, at least 50 percent of all major and minor requirements must be fulfilled from course work taken in residence at the College.
