

# Transfer Credit & Scholarship

## Transfer Credit Evaluation Process

Accepted transfer students will receive a credit evaluation of any submitted course work after the offer of admission.

Transfer credit is awarded for completed college level courses, with grades of C (2.0) or better, from an accredited institution. Previous courses must be comparable in content to those offered at Lasell.

Transfer applicants must submit official transcripts of all prior college/university level work with corresponding course descriptions or course catalogs. In addition, international transfer applicants should have their official transcripts of all prior college/university level work and/or their academic credentials translated into English if necessary, and evaluated by a credential evaluation service for possible college credit.

Students pursuing a Bachelor degree are required to complete 50% of their credits at Lasell, the final semester of which must be at Lasell College. Transfer credits will be evaluated by both the Office of Undergraduate Admission and the Office of the Registrar.

## Transfer Scholarship

Lasell College may offer highly motivated full-time transfer students the Lasell College Torch Scholarship. The Torch Scholarship is a competitive annual award, renewable for a maximum of 3 consecutive years pending satisfactory academic and judicial standing.

To qualify for this academic merit award, full-time transfer candidates must have a minimum 3.2 cumulative grade point average in a minimum 15 transferrable credit hours. Torch Scholarship's are awarded at the time of admission and consideration is based on coursework completed. The Lasell College Torch Scholarship is also available to Phi Theta Kappa members.
