

Transfer of Credit

Peru State College considers all courses completed with a grade of "C" or better at other accredited colleges and universities, provided they are reported on the official transcript of each previously attended institution and in credit hours.

A maximum of 95 semester credit hours from a regionally accredited college or university and extra-institutional sources may be applied towards the Bachelors degree at Peru State College. Of these 95 semester hours, a maximum of 66 semester credit hours may be from a community/vocational/technical college or other extra-institutional sources.

Seamless Transfer

Transfer students who have earned an Associate of Arts (AA) or an Associate of Science (AS) degree from an accredited Nebraska institution enter PSC with junior class standing (or if less than 60 hours, with all hours transferred).

Students with an Associate of Applied Science (AAS) degree also have options at PSC. Our Bachelor of Applied Science degree has a management emphasis and complements the AAS to complete a bachelors degree in less time.

Transfer of Credit Evaluation

To receive feedback on what classes will transfer to Peru State College, it is required to have completed the Application for Admission, and submit official college transcripts from all post-secondary institutions attended.

After all materials have been received, students will be notified via mail regarding classes that will be transferable to Peru State College by the Student Records Office.
