

TRANSFER ADMISSION

Students who have earned college or university credit from another regionally accredited institution are considered transfer students. The following information indicates requirements for several types of transfer students. Transcripts of transfer students who do not fall into the categories listed below will be evaluated by the Office of the Registrar and the college dean of the student's selected major on an individual basis to determine admission status.

Transfer Full Admission

For those transferring from a regionally accredited institution, full admission requires that the student provide evidence of having made satisfactory progress at the colleges/universities previously attended, on the basis of the following indicators:

- The grade point average for the last semester in which the student was enrolled was above 1.50.
- The cumulative GPA for all college work attempted by the student is 2.00 or above.

If the above criteria are not met, the transferring student may be admitted provisionally.

Upon entry as a degree-seeking transfer student, a transfer assessment will be performed to determine what program requirements the student has already completed and what requirements remain to be fulfilled to complete the designated degree at SNU. Every attempt is made to establish appropriate equivalencies, but the transfer student should expect to take additional General Education and major courses to fulfill SNU requirements.

No more than 62 credit hours can be accepted from junior/community colleges in transfer. After a student has reached junior standing (having completed 57 credit hours), no more than eight credit hours will be accepted from a junior or community college without the recommendation of the student's advisor and prior approval of the college dean of the student's selected major.
