

## *Transfer credit policies*

1. In general, if you want to transfer to WWU, you will be considered for regular admission if you have completed 12 or more credit hours at another institution while earning a minimum cumulative grade point average of 2.0. You must be eligible to return to your former institution. [Apply for Admission now](#). You should send your official transcripts from all colleges attended to the Office of Admissions. Additionally, due to federal regulations, you must also submit a copy of your official high school transcripts or G.E.D before any financial aid may be disbursed. **Please mail to:** William Woods University, Office of Admissions, One University Avenue, Fulton MO 65251.
2. Transfer Credits:
  - If you are a community college transfer student, you may transfer up to 70 credit hours; however, courses with a grade of “D” are only accepted if they are part of an Associate of Arts degree (this excludes Associate of Science and/or Associate of Applied Science degrees.) If you are transferring an Associate of Arts degree, you are not required to repeat courses transferred with a “D” grade unless specifically stated in prerequisite or major requirements.
  - Transfer credits are generally accepted at full semester value, providing that the transferring institution is accredited by the North Central Association of Colleges and Schools, or an equivalent accrediting agency, and the course content is similar to that offered at William Woods.
  - Accepted transfer hours are figured into the total 122 credit hours required for completion of a baccalaureate degree, but transfer grades are not calculated into your WWU grade point average. You must have at least a 2.0 GPA on a 4.0 scale to be considered for acceptance. If you do not meet the criteria, you may be eligible for provisional acceptance. Due to federal regulations, your high school transcript, G.E.D. certificate, etc. are required to prove completion of high school or equivalent.
  - Students may transfer in an Associate of Arts degree during their enrollment at William Woods to meet and complete Common Studies requirements. The residency rule would remain in effect, so each student’s last 30 credits would still need to be William Woods courses.
