Updated Equivalency Details Page

Below is a viewing guide for a sample PA SOAR articulation between a Program of Study from PA Bureau of Career and Technical Education and a participating institution. **POS Paperwork, which is student documentation, is accessible under the new "Documents" section on the left side Program of Study record.**

Equivalency Details

The information presented is an unofficial guide to how courses may transfer. Other factors to consider are grades received in the courses, the year in which the course was taken, and the major pursued after transfer. In all instances, final decisions about acceptance of course credit will be made by Harcum College.

BUS 213 - Accounting I

This course is a comprehensive first course in accounting. The fundamental concepts and techniques of a basic accounting system are studied including a complete cycle of business activities. Accounting principles, income and expense recognition, asset, liability, and owner's equity evaluation, and basic financial statement preparation are studied. The student must earn a grade of C or higher to continue to BUS 214.

Credits: 3.00

BUS 223 - Microeconomics

This course introduces the principles of economics relating to individual economic units: Households, Businesses, and Governments. Students study the relationships, problems, and policies among these units and the concepts such as Supply and Demand. This is an examination of money and banking, performance measures of the economic system, and the Classical and Keynesian approaches. The monetary and fiscal policy of the USA, the nature of money, the general goals and specific objectives of a capitalist economy are analyzed and discussed. Upon successful completion of the course a student should be able to identify, define, discuss, and predict the elemental microeconomic ideas

Credits: 3.00

Course Articulation

CIS 203 - Comp Accounting Sys

This course emphasizes the creation, implementation, and control of computerized accounting systems. Students will use the computer to implement the accounting system modules. Emphasis will be on financial reporting, receivables, payroll and payables as they relate to the standard needs of business. Peachtree Accounting System will be used. Prerequisite: BUS 213.

Credits: 3.00
